Sprint LTD Revised Revenue Benchmark Data Request Response RE: CC Docket No. 96-45 and No. 97-160, DA 98-1576

Dear Ms. Salas:

Pursuant to the Commission's decision in CC Dockets No. 96-45 and 97-160, Sprint LTD herewith files a revised response to the revenue benchmark data request. One set of data containing confidential information for Charts 4 and 5 has provided to Mr. Bryan Clopton of the Accounting Policy Division. The public version of this data has been provided to Sheryl Todd (2 copies) and ITS.

This response reflects a correction to Chart 1, Row 11, Column D for our Central Telephone Company of Texas study area (CETX).

Any questions on this submission may be directed to Sally Carr at 913/624-1233.

Best Regards,

WDW:kk

#### FCC Revenue Benchmark Data Request DA 981576

Approved by OMB 3060-0842 Expires 02/28/1999

Estimated Average Burden Per Response: 250 Hours

Notice to Individuals: Pursuant to Congress's directive in the Telecommunications Act of 1996 that the Commission establish support mechanisms to ensure the delivery of affordable telecommunication service to all Americans, the Commission determined on May 8, 1997 that universal service support for rural, insular, and high cost areas should be based on forward-looking economic costs. As part of the forward-looking economic cost methodology, the Commission determined that it would select two revenue benchmarks to calculate the amount of federal universal service support that eligible non-rural carries should receive. The data request solicits information from non-rural local exchange carriers to calculate the revenue benchmarks that will determine the level of universal service support. Your response is mandatory. 47 C.F.R. §§ 0.91 and 0.291.

This data request will be used to assist the Commission in implementing the forward-looking economic cost methodology used to estimate the amount of universal service support that will be provided to eligible non-rural carriers beginning July 1, 1999.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid control number. The control number assigned to this collection 3060-0842.

We have estimated that each response to this collection of information will take, on average, 250 hours. Our estimate includes the time to read the instructions, look through existing records, gather and maintain the required data, and actually complete and review the form or response. If you have any comments on this estimate, or how we can improve the collection and reduce the burden it causes you, please write the Federal Communications Commission, AMD-PERM, Washington, D.C. 20554, Paperwork Reduction Project (3060-0842). We also will accept your comments via the Internet if you send the to jboley @fcc.gov. Please DO NOT SEND COMPLETED RESPONSES TO THIS ADDRESS.

#### CERTIFICATION

I certify that I have been designated by the Company to attest to the accuracy of the information contained herein and that I have examined the foregoing and that to the best of my knowledge, information, and belief, all statements of fact contained in this report are an accurate statement of the affairs of the respondent with respect to the data and information set forth herein.

#### CHART 2: INTERSTATE SWITCHED ACCESS REVENUES FOR JULY 1998

For each class of customer (residential, single-line business, and multi-line business), please provide total interstate switched access revenues for July 1998 received through: flat-rated charges to interexchange carriers based on the number of presubscribed lines, i.e., presubscribed interexchange carrier charges (PICCs); per-minute charges, including common line, switching and transport charges that are recovered on the basis of a per-minute charge; and per-call charges. In addition, please provide the total interstate access revenues for July 1998 received through flat-rated carrier-to-carrier charges.

For July 1998, please undertake a special study, if necessary, to determine the total number of interstate switched originating and terminating access minutes. In addition to total interstate switched access minutes, determine the number of such minutes originated and terminated by each class of customer (residential, single line business, and multi-line business). Also, please include the average number of residential, single-line business and multi-line business switched lines in service during the study period, where the average is calculated by taking the simple average of the number of lines in service at the beginning of the study period and the number of lines in service at the end of the period.

#### CHART 3: INTRASTATE SWITCHED ACCESS REVENUES FOR JULY 1998

For each class of customer (residential, single-line business, and multi-line business), please provide total intrastate switched access revenues for July 1998 received through: flat-rated charges to interexchange carriers based on the number of presubscribed lines, such as, presubscribed interexchange carrier charges (PICCs); per-minute charges, including common line, switching and transport charges that are recovered on the basis of a per-minute charge; and per-call charges. In addition, please provide the total intrastate access revenues for July 1998 received through flat-rated carrier-to-carrier charges.

For July 1998, please undertake a special study, if necessary, to determine total number of intrastate switched originating and terminating access minutes. In addition to total intrastate switched access minutes, determine the number of such minutes originated and terminated by each class of customer (residential, single-line business, and multi-line business). Also, please include the average number of residential, single-line business and multi-line business switched lines in service during the study period, where the average is calculated by taking the simple average of the number of lines in service at the beginning of the study period and the number of lines in service at the end of the period.
